

[Department/Project Name] – Shared Account Transition – Support Summary

Project: Shared Account Remediation

Location: [Department / Campus]

Date: [DD/MM/YYYY]

Prepared by: [Engineer Name]

Account ID: [shr-account-name]

Status: Implemented and Active

1. Purpose of Change

[Short explanation: Why this account exists, what it replaces, and its operational role.]

2. Overview of Changes

- [Action 1: eg, Created new shared account shr-xxxx]
- [Action 2: eg, Disabled legacy oldaccount]
- [Action 3: eg, Configured Keeper entry / MFA / shared mailbox]

3. Devices Using [shr-account-name]

[List devices restricted to this account. Example:]

- **W1234** – [device description]
- **M5678** – [device description]

4. Shared Account Configuration

Account Name: [shr-account-name]

Password Policy: [12-month rotation / no expiry, etc.]

OU Path: [OU=!Shared Accounts,OU=Factory, ...]

Email/Teams Setup: [Mailbox / Teams access if enabled]

5. Access Groups and Controls

- grp-[dept]LAC – Login Access Control
- grp-[dept]RW – Read/Write drive access
- grp-[dept]RO – Read-only drive access
- grp-[dept]RDC – Remote Desktop access (if applicable)

[Explain if restrictions are applied directly on the AD user object or via groups.]

6. Keeper Access & Custodians

Account credentials and MFA are stored in Keeper. Access granted to:

- [Name, Role]
- [Name, Role]
- [Name, Role]

7. Drive and Application Access

Mapped Drives:

- T:\ → \\factory.wf1\DFS2\[DeptShare]
- X:\ → \\factory.wf1\wf1\user_cae_files2\[shr-account]
- Y:\ → \\factory.wf1\wf1\pdmfiles\common

Applications:

[List applications verified under this account, e.g. CAD, CAM, CNC tools.]

SharePoint/OneDrive Integration:

[List relevant SharePoint sites, OneDrive folders, or M365 syncs.]

8. Exceptions / Special Cases

[Document any exemptions: USB policy exclusions, kiosk PCs exempt from screen lock, admin overrides for scanning, etc.]

9. Policy & Admin Notes

- Legacy account [oldaccount] disabled

- Local admin rights removed (except IT)
- Confirmed GPO enforcement for screensaver lock, password complexity, inactivity timeout
- [Any additional notes]

10. Data & Migration Tasks

- Files migrated from [oldaccount] → [shr-account]
- Desktop shortcuts created for legacy data access (C:\Users\oldaccount)
- Temporary access available until rebuilds (note risk of data loss on reimage)

11. Validation Summary

Validation performed by:

- [Business Owner Name – Role]
- [Engineer Name]

Validation Activities:

- Verified application access (list key apps)
- Confirmed licensing (no errors under new account)
- Tested drive mappings (all accessible as expected)
- Checked login restrictions (only scoped devices allow access)
- Tested printing/scanning/USB workflows (if relevant)
- Confirmed OneDrive/SharePoint sync
- [Other validation steps]

Result: All tests passed successfully. Environment confirmed as production-ready.
